

FIVE WAYS TO NOWHERE

**HI FUELED
ROCK N ROLL**

BIOGRAPHY

Five Ways To Nowhere is a powerful blend of loud guitars, aggressive and groovy riffs, a scratchy voice with catchy melodies all driven by a lethal rhythm section.

Their music is a mix of Hard Rock and Metal that creates an explosive and melodic sound in the wake of bands like Halestorm, Guano Apes, Papa Roach and others.

They've poured their hearts and souls into every live gig since 2015, bringing around Europe a right-to-your-face show, you can't forget.

Hi-Fueled Rock N Roll, hi-gain amps and an insolent punk attitude: that's Five Ways To Nowhere.

Are you ready?
